

Core Setup

```
library(shiny)
library(bs4Dash)
library(bs4Dashkit)

ttl <- dash_titles(
  brand_text = "My Dashboard",
  icon = icon("cloud")
)

ui <- bs4DashPage(
  title = ttl$app_name,
  header = bs4DashNavbar(title = ttl$brand),
  sidebar = bs4DashSidebar(),
  body = bs4DashBody(
    use_bs4Dashkit_core(ttl)
  )
)
```

Rule: put `use_bs4Dashkit_core(ttl)` first inside `bs4DashBody(...)`.

Brand Builder

`dash_titles()` returns:

- `ttl$app_name`: browser title
- `ttl$brand`: navbar or sidebar brand UI
- `ttl$deps`: dependencies used by the core helper

Icon inputs

- character name: `icon = "cloud"`
- Shiny tag: `icon = icon("cloud")`
- image logo: `icon_img = "logo.png"`

Sidebar Brand Modes

Mode	Meaning
icon-only	icon only
icon-text	icon + label
text-only	label only

```
ttl <- dash_titles(
  brand_text = "OLTCR Dashboards",
  icon = icon("cloud"),
  collapsed = "icon-text",
  expanded = "icon-text",
  collapsed_text = "OLTCR",
  expanded_text = "OLTCR Dashboards"
)
```

New sidebar text styling

```
ttl <- dash_titles(
  brand_text = "OLTCR Dashboards",
  icon = icon("cloud"),
  collapsed_text_size = "10px",
  expanded_text_size = "15px",
  collapsed_text_weight = 700,
  expanded_text_weight = 800
)
```

Themes

Built-in presets

- professional
- modern
- dark-lite

```
bs4dashkit_theme_presets()
```

```
use_bs4Dashkit_core(
  ttl,
  preset = "modern"
)
```

Accent override

```
use_bs4Dashkit_core(
  ttl,
  preset = "professional",
  accent = "#2f6f8f"
)
```

Direct theme control

```
use_dash_theme(
  bg = "#f5f6f8",
  surface = "#ffffff",
  accent = "#2f6f8f"
)
```

Navbar Helpers

```
rightUi = tagList(
  dash_nav_title(
    "DASHBOARDS",
    "Critical & Main",
    icon = "shield-halved",
    align = "center"
  ),
  dash_nav_item(
    dash_nav_refresh_button("refresh")
  ),
  dash_nav_item(
    dash_nav_help_button("help")
  ),
  dash_user_menu(
    dropdownMenu(
      type = "notifications",
      notificationItem("Profile"),
      notificationItem("Sign out")
    )
  )
)
```

Footer

```
footer = dash_footer(
  logo_src = NULL,
  left_text = "My Organisation",
  right_text = "Internal Use"
)
```

Useful Helpers

```
app <- bs4dashkit_example_app()
```

Global defaults

```
options(  
  bs4Dashkit.sidebar.collapsed =  
    "icon-only",  
  bs4Dashkit.sidebar.expanded =  
    "icon-text",  
  bs4Dashkit.theme_preset =  
    "professional"
```

```
)
```
